Data Selections

- you have an own collection already?
LOGIN
- or select one of the
Featured Data Selections
- or Create a new Data Selection

SEARCH AND MERGE THE DATA YOU NEED

leads you to the Data Retrieval site:

Data Retrieval

Sources: list of all sources available at AT\$new.

Select a source and follow the respective official thesaurus to database level where you make your selection.

Search: make use of POPULAR QUERIES listed there (or create your own query by KEYWORD SEARCH at the top of each page)

Categories: list of categories across all sources available at AT\$new. Select a category and follow the respective thesaurus to database level where you make your selection.

Best Countries: popular country rankings with one click

UPLOAD DATA

It's that simple to load external data as an AT\$-Selection to make it available for your presentations in AT\$new.

Follow the instructions shown there..
